About this course

Course Overview

▼ Introduction ✓

✓ Welcome to the course

▼ Anthropic overview ✓

✓ Overview of Claude models

▼ Accessing Claude with the API

✓ Accessing the API

✓ Getting an API key

- ☒ Making a request
- ☐ Multi-Turn conversations
- ☐ Chat exercise
- ☐ System prompts
- ☐ System prompts exercise
- ☐ Temperature
- ☐ Course satisfaction survey
- ☐ Response streaming
- ☐ Structured data
- ☐ Structured data exercise
- ☐ Quiz on accessing Claude with the API

▼ Prompt evaluation

- ☐ Prompt evaluation
- ☐ A typical eval workflow
- ☐ Generating test datasets
- ☐ Running the eval
- ☐ Model based grading
- ☐ Code based grading
- ☐ Exercise on prompt evals
- ☐ Quiz on prompt evaluation

▼ Prompt engineering techniques

- ☐ Prompt engineering
- ☐ Being clear and direct
- ☐ Being specific

☐ Structure with XML tags

☐ Providing examples

☐ Exercise on prompting

☐ Quiz on prompt engineering techniques

▼ Tool use with Claude

☐ Introducing tool use

☐ Project overview

☐ Tool functions

☐ Tool schemas

☐ Handling message blocks

☐ Sending tool results

☐ Multi-turn conversations with tools

☐ Implementing multiple turns

☐ Using multiple tools

☐ Fine grained tool calling

☐ The text edit tool

☐ The web search tool

☐ Quiz on tool use with Claude

▼ RAG and Agentic Search

☐ Introducing Retrieval Augmented Generation

☐ Text chunking strategies

☐ Text embeddings

☒ The full RAG flow

☒ Implementing the RAG flow

☒ BM25 lexical search

☒ A Multi-Index RAG pipeline

▼ Features of Claude

☒ Extended thinking

☒ Image support

☒ PDF support

☒ Citations

☒ Prompt caching

☐ Rules of prompt caching

☐ Prompt caching in action

☐ Code execution and the Files API

☐ Quiz on features of Claude

▼ Model Context Protocol

☐ Introducing MCP

☐ MCP clients

☐ Project setup

☐ Defining tools with MCP

☐ The server inspector

☐ Implementing a client

☐ Defining resources

☐ Accessing resources

☐ Defining prompts

☐

- ☐ Prompts in the client MCP review

- ☐ Quiz on Model Context Protocol

▼ Anthropic apps - Claude Code and computer use

- ☐ Anthropic apps

- ☐ Claude Code setup

- ☐ Claude Code in action

- ☐ Enhancements with MCP servers

▼ Agents and workflows

- ☐ Agents and workflows

- ☐ Parallelization workflows

- ☐ Chaining workflows

- ☐ Routing workflows

- ☐ Agents and tools

- ☐ Environment inspection

- ☐ Workflows vs agents

- ☐ Quiz on Agents and Workflows

▼ Final assessment

- ☐ Final Assessment

▼ Wrapping up!

- ☐ Course Wrap Up
